World Wildlife Day

Protecting Animals and Their Homes

An Important Date

Celebrated on March 3rd

A Global Reminder

Why this day exists

World Wildlife Day reminds us that animals and their homes need urgent protection. It is a day to celebrate the many beautiful and varied forms of wild fauna and flora.

By raising awareness, we can help ensure the survival of species threatened by habitat loss and climate change.

Wildlife of Peru

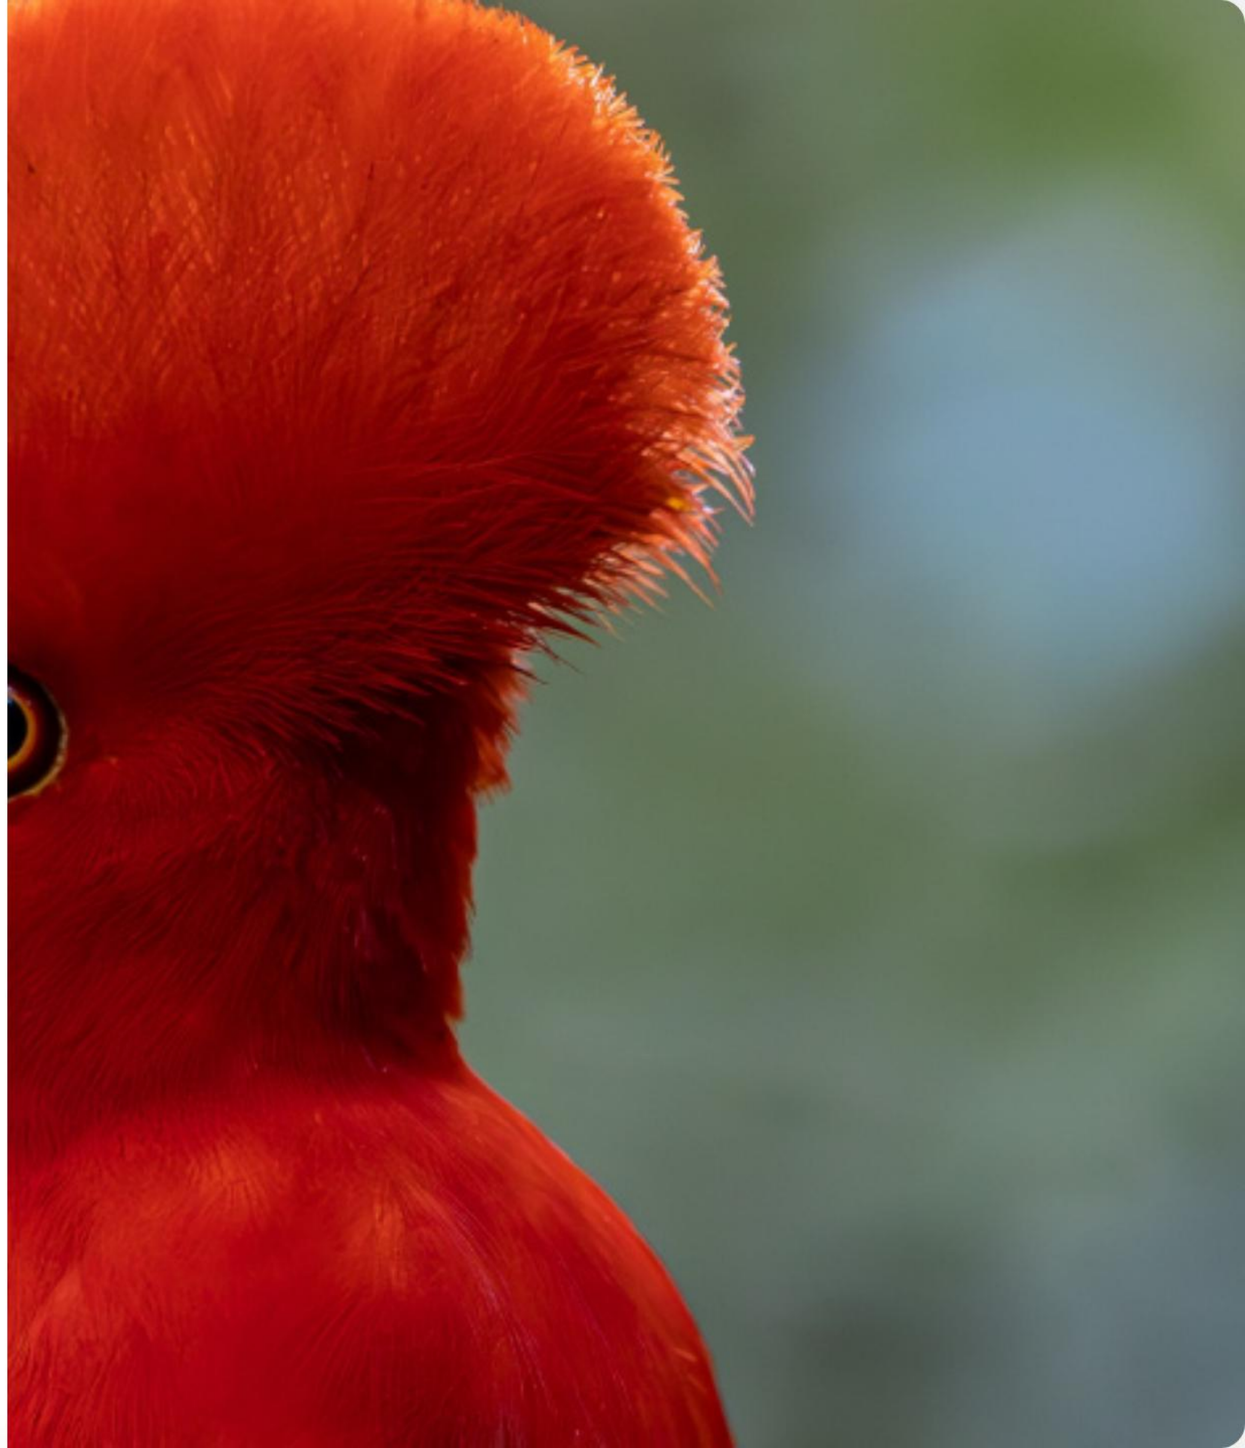
Spotlighting Unique Jungle Species

The Cock-of-the-rock

Andean Habitat

In Peru, we have the magnificent Andean Cock-of-the-rock. Usually, this iconic bird is living in the dense, misty **cloud forests** of the highlands.

Known as the "Tunqui" in Quechua, it is famous for its vibrant orange plumage and unique crest.



Diet & Ecosystem Role

Daily Nutrition

The Cock-of-the-rock eats wild fruits every day. Some of its favorites include **papaya and figs** found deep in the forest canopy.

The Seed Spreader

This is important because the bird is **spreading seeds** as it flies, helping to grow more trees and sustain the forest's life cycle.

Pink River Dolphin

Amazonian Wonder

Another amazing species is the Pink River Dolphin. At this moment, it is **swimming in the Amazon River**, deep in the heart of the jungle.

This unique freshwater dolphin is known for its friendly nature and striking pink color.

Survival in the River

- This dolphin usually eats many types of fish to survive in the competitive river ecosystem.
- It depends on clean, healthy river systems to find its food and raise its young.
- Protecting the river is essential for the survival of this amazing species.

In Conclusion

A Call to Action for Nature

How We Can Help

Respect Nature

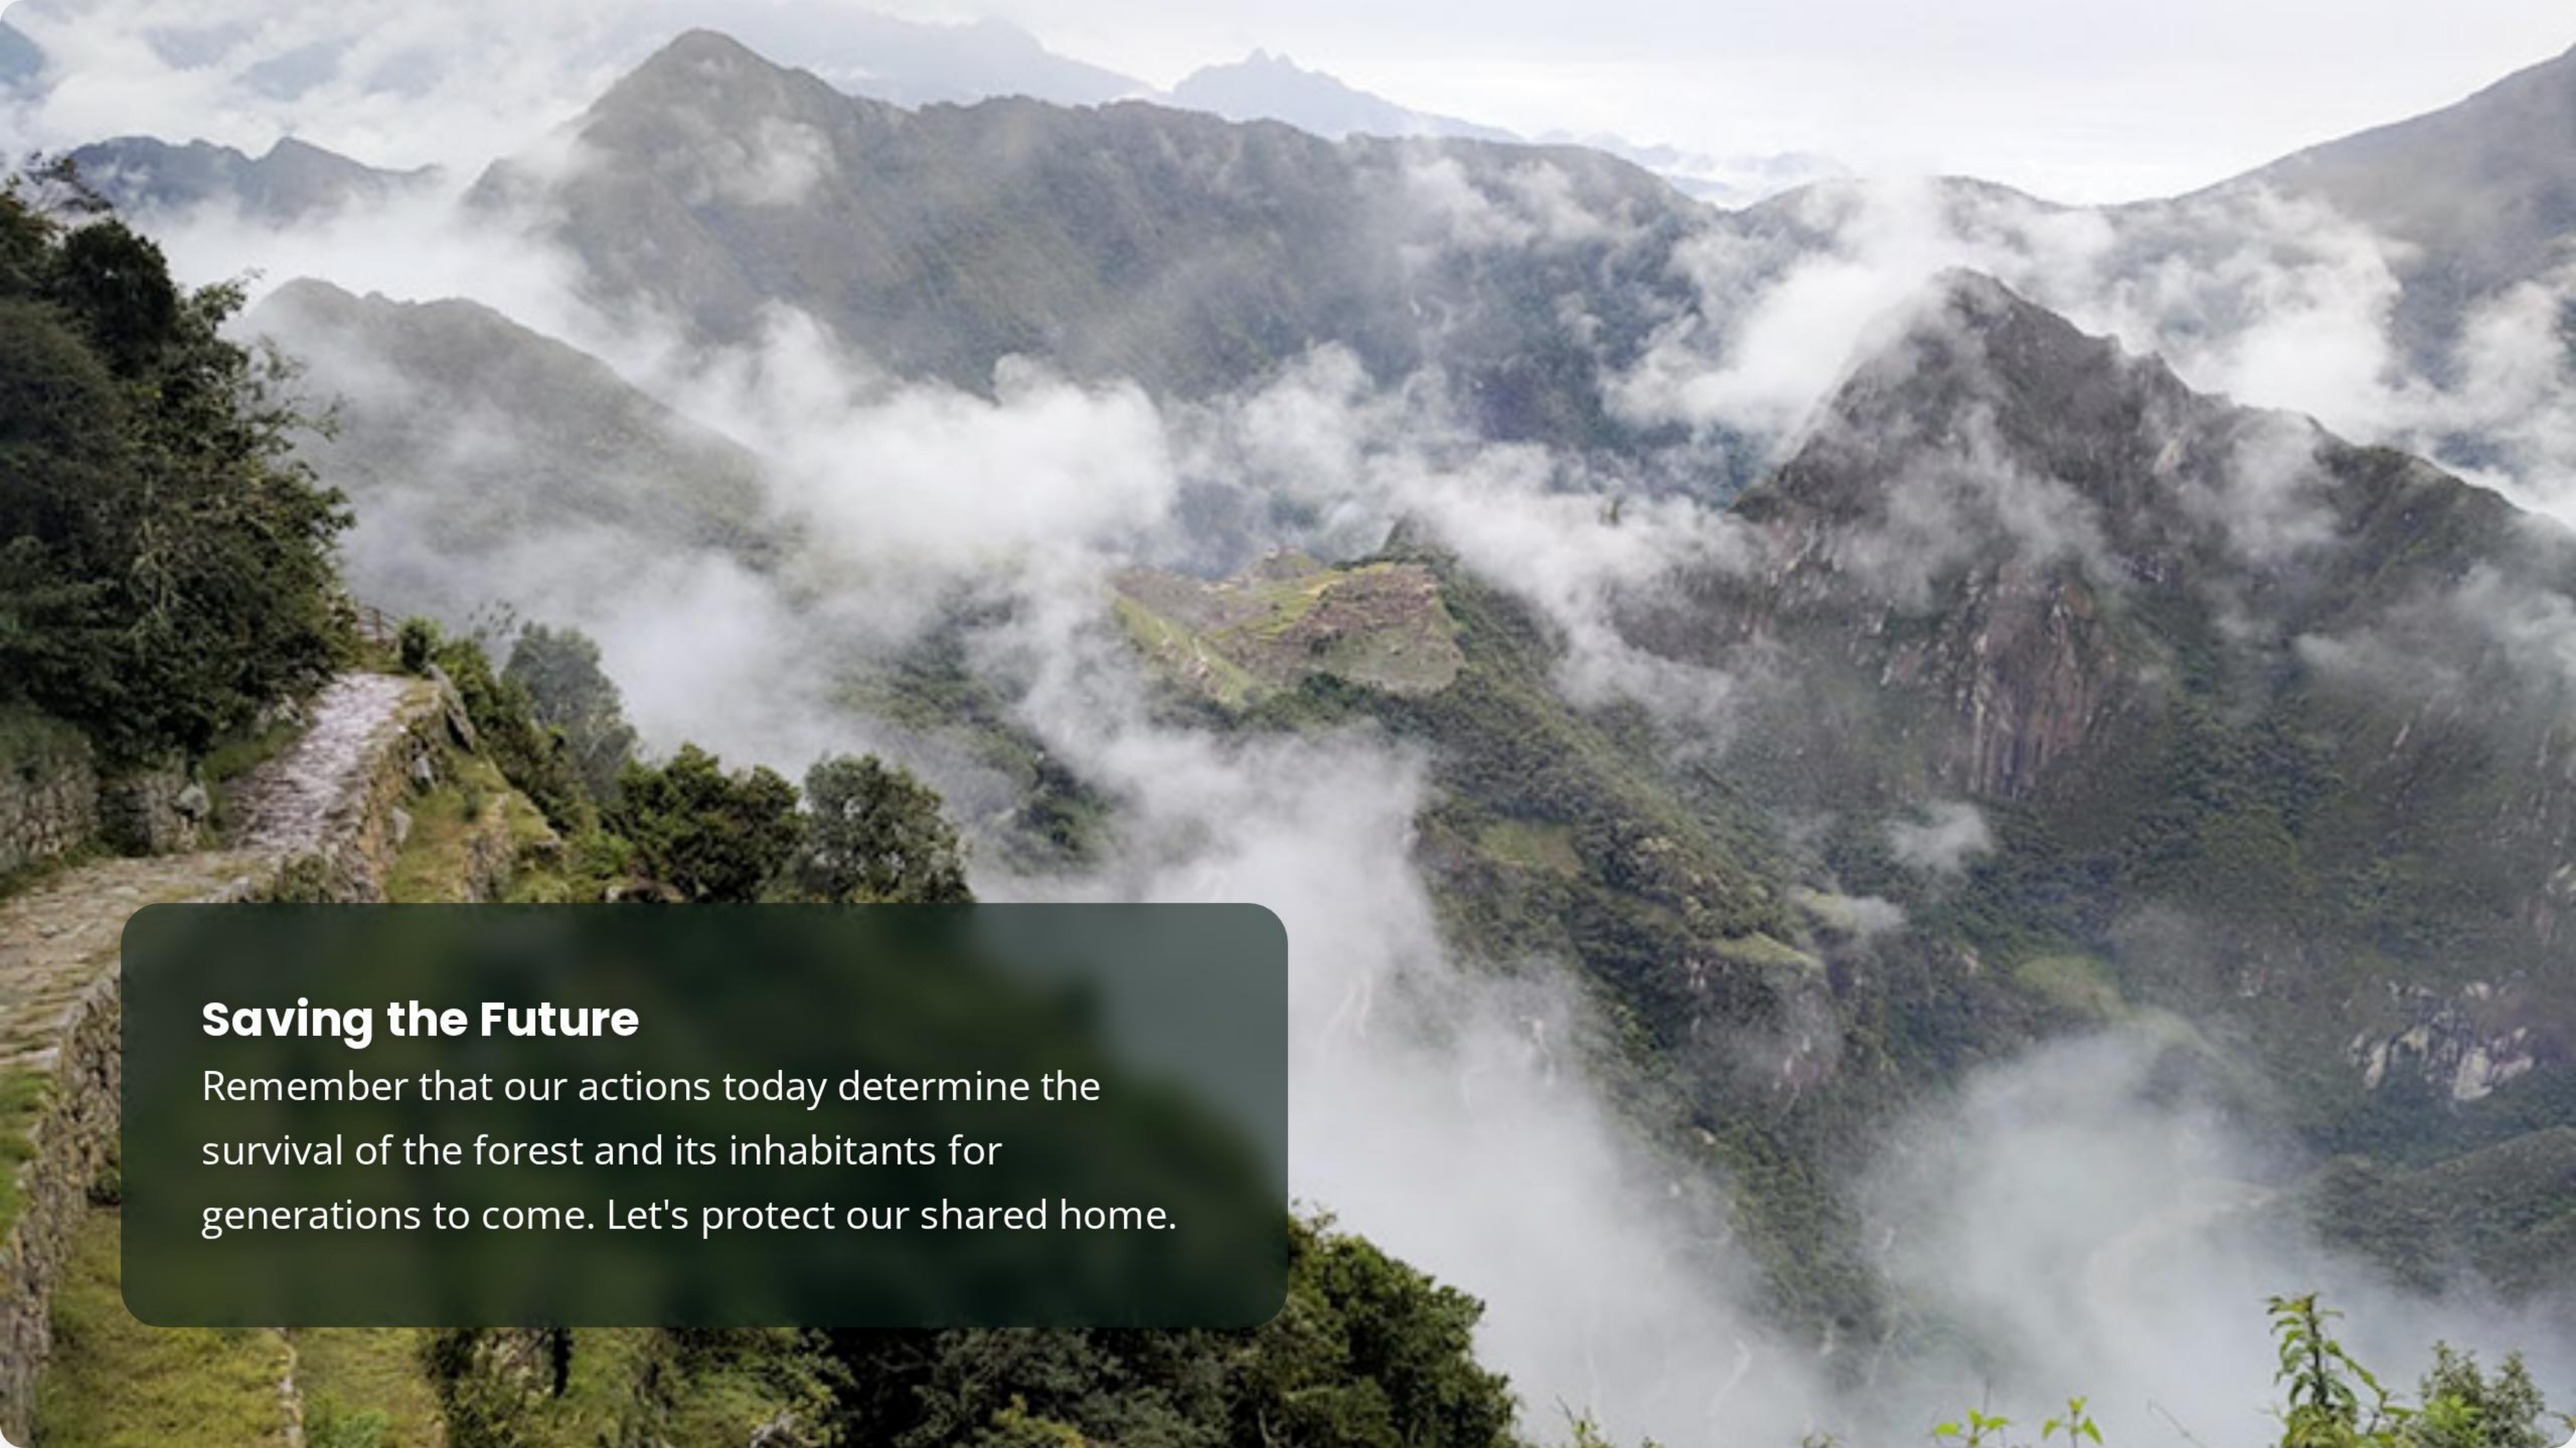
We need to respect nature in our daily lives and support eco-friendly practices.

Global Effort

Right now, many people are working together to help protect these species from extinction.

Habitat Save

If we protect the forest and the river, we are saving the animals too.



Saving the Future

Remember that our actions today determine the survival of the forest and its inhabitants for generations to come. Let's protect our shared home.

Thank You!

Questions & Discussion

Thank you for your attention.
